PARADOX OF THERON

Paradox of Theron (POT), is a core learning component of the 2-credits "Entrepreneurial Mindset and Skills" (EMS) academic module at Sunway University. EMS aims to cultivate the entrepreneurial mindset and skills necessary for success in the 21st century, empowering students to tackle SDG-related challenges through practical application. POT, the innovative online game-based learning, immerses students in a dynamic, 23-day simulated entrepreneurial environment, requiring them to critically analyse SDG problems, propose innovative solutions, and strategise gameplay within randomly assigned teams. This certificate celebrates the winning team's exceptional achievement, demonstrating their ability to endure, strategise, and excel in this challenging environment.
